

Everything you need to comply with the new CCL required Medication Training for RCFEs

CALIFORNIA MEDICATION TRAINING PROGRAM

AB 2609 requires "the training material and exam for all RCFEs must be developed by, or in consultation with, a licensed nurse, pharmacist or physician." Our Advanced Healthcare California Medication Training Program has been developed in consultation with Sandi Flores, RN.

Order the California Medication Training Program specific to your facility size. Customized to communities 15 beds or less and 16 beds or larger.

All staff who assist with medications must complete the NEW medication training by January 1, 2008.

Includes six videos (VHS or DVDs) and:

- Competency verification forms
- Training verification forms
- Required Exam that tests the employee's comprehension of the training materials
- Certificate of Completion to duplicate and present to your staff, suitable for framing
- Sample letter for pharmacists and medical professions requesting the use of "plain English" as required by AB2609
- CD-ROM with forms and plan of operation for easy customization as desired
- Contact information, professional qualifications on nurse consultant responsible for the development of the program (Sandi Flores, RN)

Go to www.advhs.com for the complete text of Assembly Bill 2609 related to training/trainer requirements.

All required materials are included in this easy to use kit.

- ✓ Plan of Operation for medication training for submission to licensing as required by AB 2609
- ✓ Training Manual including easy to follow instruction guide to ensure all requirements are met
- ✓ Set of six California Medication Training Videos and written material which address every CCL required topic, including:
 - The role, responsibilities, and limitations of staff who assist residents with the self-administration of medication, including tasks limited to licensed medical professionals.
 - An explanation of the terminology specific to medication assistance.
 - An explanation of the different types of medication orders
 - An explanation of the basic rules and precautions of medication assistance.
 - Information on medication forms and routes for medication taken by residents.
 - A description of procedures for providing assistance with the self-administration of medications in and out of the facility, and information on the medication documentation system used in the facility.
 - An explanation of guidelines for the proper storage, security, and documentation of centrally stored medications.
 - A description of the processes used for medication ordering, refills and the receipt of medications from the pharmacy.
 - An explanation of medication side effects, adverse reactions, and errors.

The California Medication Training Program will be available in June 2007. You may place your order NOW. All orders are shipped in the order they are received.

Select the program for your facility size.
Up to 15 beds #MK1 \$295 16 beds or more #MK2 \$349
